Accelerated Program in Electrical Engineering

Program Modality: Accelerated, on-campus

Degree Conferred: Master of Science in Electrical Engineering

Program Duration: 16 months

Advertised Salary: Mean: $98K, Median: $98K

Top Common Industries:
- Aerospace Product and Parts Manufacturing
- Scientific Research and Development Services
- Semiconductor and Other Electronic Component Manufacturing
- Navigational, Measuring, Electromedical, and Control Instruments Manufacturing

What You Will Learn:
- Demonstrate a strong understanding of mathematical, scientific, and engineering principles in the field.
- Work independently to formulate, analyze, and solve advanced engineering problems.
- Apply the relevant scientific and technological advancements, techniques, and engineering tools to address these problems.
- Recognize and apply principles of ethical and professional conduct.
- Areas of emphasis include computer engineering, fields and waves, solid state/photonics or energy and power systems.
